

STEAM LINK®

ADVANCED STEAM ENERGY SOLUTIONS

www.steamlink.com.au

STEAM PLANT EFFICIENCY

We focus on the on-site installed and in-house managed steam energy systems, as we are working with our clients to optimise the performance dynamics of the production / process plant with reduced energy intake, greenhouse gas emission and operating cost, through efficient steam generation & effective process specific energy integration.

ACHIEVE MORE >< WITH LESS

Capital – Energy – Time – Resources – Emission

Summary of Testimony

I recommend STEAM LINK® to any company who uses steam in its processes, as we achieved substantial energy savings, plus improved plant performance, all adding up to a reduced production cost per unit.

Jamie Pacey, Maintenance Manager

JAMES HARDIE Australia Pty Ltd. Meeandah Plant, Qld
